The MBA

Welcome to the MBA graduating class of 2021.

Our highly competitive and challenging application process has selected 497 outstanding individuals to join us on a life-changing journey. These students represent 66 nationalities, many speak two or more languages and a significant number have already worked in a range of countries before joining us. All of them have demonstrated career excellence and outstanding academic aptitude. However, the MBA programme enables them to achieve much more.

Our MBA makes the most of individual potential with a rigorous and challenging curriculum. It features a strong emphasis on teamwork, a varied portfolio of electives, a leadership skills programme, the opportunity to work with leading organisations based in London through LondonCAP, a chance to explore global potential on a Global Business Experience and the opportunity to complete an international exchange at one of more than 30 top schools worldwide.

As well as having stellar business potential, London Business School students are well-rounded individuals, following their passions as leaders and participants in a range of student clubs and professional, social and sporting events.

Whatever your interaction with the class of MBA2021, I hope you will agree that these students represent the very best global leaders of tomorrow.
