## 1 Introduction

The purpose of this document is to provide Google Android users with instructions for connecting to the JANET Roaming Service (JRS) eduroam for members of the London Business School community.

## 2 Getting Connected

The JANET Roaming Service (JRS) at London Business School is advertised via the eduroam wireless network and secured using IEEE 802.1x/ EAP-PEAP authentication.

## 3 Requirements

The following is required to connect to the JRS eduroam service at London Business School:

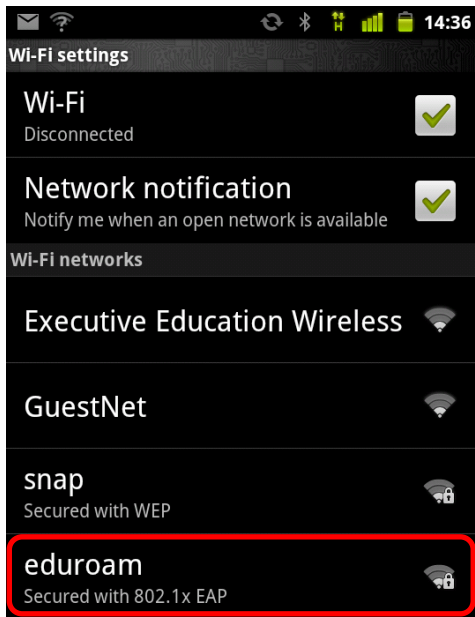

- For **London Business School Staff, Faculty and Students:**
  - A London Business School userid & password.
  - To use eduroam you need to have a @london.edu mailbox hosted by the School. Please note that other arrangements exist for Alumni and Executive Education Participants; please refer to WALT or SetupWifi for further details.
- For **External eduroam users of Partner Institutions:**
  - Please refer to instructions issued by your own institution's IT department as their requirements for authentication may differ from those required by London Business School. Provided you meet the criteria set by your home institution you should be able to use the eduroam network on the London Business School campus. If you have any queries or need support please refer to your home institution IT Support.

## 4 Connect to eduroam

To configure your Android device you will need to navigate to the Wi-Fi settings window:

<p>Navigate to:</p> <p><b>Settings</b> →</p> <p><b>Wireless controls</b> →</p> <p><b>Wi-Fi settings</b></p>	 <p>The screenshot shows the 'Wireless &amp; network settings' screen. The 'Wi-Fi settings' option is highlighted with a red box. The screen also shows 'Airplane mode' (disabled), 'Wi-Fi' (disconnected), and 'Bluetooth' (enabled).</p>
---	---

<p>Select <b>eduroam</b> from the list of wireless networks:</p>	 <p>The screenshot shows the 'Wi-Fi settings' screen. The 'eduroam' network is highlighted with a red box. The screen also shows 'Network notification' (enabled) and a list of Wi-Fi networks including 'Executive Education Wireless', 'GuestNet', 'snap', and 'eduroam'.</p>
--	---

Enter the following details:

EAP Method	<b>PEAP</b>
Phase 2 Authentication	<b>MSCHAPv2</b>
CA Certificate	<i>Unspecified</i>
User Certificate	<i>Unspecified</i>
Identity	<b>Your London Business School userid</b> <b>Note:</b> this must be appended with <b>@london.edu</b> e.g. <b>user@london.edu</b>
Anonymous Identity	<b>Your London Business School userid</b> <b>Note:</b> this must be appended with <b>@london.edu</b> e.g. <b>user@london.edu</b>
Password	<b>Your London Business School password</b>

Click **Connect**.
